EDUCATION

Howard University, College of Engineering and Architecture, Washington, DC **Aug 2023 - May 2027**
B.S. in Computer Science, Expected May 2027 **GPA: 3.6**

Related Coursework: Natural Language Processing | Database Systems | Network & Web Programming | Fundamentals of Algorithms | Software Engineering | Operating Systems | Structure of Processing Language

Languages: Python · C++ · JavaScript · HTML · CSS · SQL | **Tools:** GitHub · React · Pandas · ArcGIS · spaCy · Figma · WordPress · Linux · Power BI · Cisco | **Concepts:** API · NLP · GIS · Data Structures · Agile · Front-End · Back-End · Data Visualization · Data Bases | **Design:** Photoshop · Illustrator · Premiere Pro

PROFESSIONAL EXPERIENCE

Durham Community Safety Department - HEART **Jun 2024 - Aug 2024**
Summer Intern Durham, NC

- Streamlined front desk operations, providing intake support for 50+ guests per shift.
- Coordinated weekly outreach, organizing supplies for 100+ individuals in need.
- Researched Gun Violence Prevention policy, compiling findings into reports for department leadership.

Durham County Tax Administration **Jun 2019 - Aug 2019**
Summer Intern Durham, NC

- Applied ESRI ArcMap to perform GIS spatial analysis and generate maps for county planning decisions.
- Supported the plat review officer in evaluating land records for regulatory accuracy and compliance.
- Collaborated with staff to develop and enhance professional and technical skills.

PROJECTS & STUDENT ENGAGEMENT

AI Study Buddy Interface [GitHub](#)
React · TypeScript · Node.js · PostgreSQL · Docker · Gemini API [Live](#)

- Full-stack AI web app with JWT auth, REST API, and PostgreSQL database deployed on Render/Vercel
- Integrated Google Gemini API for AI tutoring, PDF text extraction, and auto-generated flashcard decks
- Created SM-2 spaced repetition algorithm, Docker containerization, and GitHub Actions CI/CD pipeline

Campus Advisory NLP Platform [GitHub](#)
Python · spaCy · Streamlit · Folium · Geopy · Power BI

- Co-built an NLP pipeline using spaCy to classify campus reports and extract geospatial location data.
- Engineered Streamlit + Folium dashboard with confidence scoring, filtering, and Power BI CSV export.
- Improved location accuracy by using addresses and mapping 50+ campus-specific landmarks via Geopy.

LyrIQ — Lyric Challenge Game [GitHub](#)
React · Django · Firebase Auth · PostgreSQL · Spotify API · REST APIs

- Co-built full-stack music trivia app with React, Django REST, PostgreSQL, and Spotify API integration.
- Implemented Firebase Google auth, global leaderboard, and real-time score updates.
- Defined 25 functional requirements across 6 Agile milestones covering auth, gameplay, and deployment.

Website Revamp / Technology Manager (HBCU ABLE) HBCUABLE.com
WordPress · UX/UI Design · Web Architecture · Content Management

- Led full redesign of HBCUABLE.com, improving site structure for 1,000+ HBCU students nationwide.
- Managed end-to-end content pipeline publishing blogs, events, and announcements at 100% accuracy.
- Reduced vulnerabilities by auditing bot accounts, improving platform reliability, and user trust.

The Society of Collegiate Black Men Inc. Web Platform / SCBM Chaplain [GitHub](#)
Web Development · UX Design · Forms · Accessibility

- Designed a responsive wellness survey platform for SCBM to centralize digital health feedback.
- Organize and execute 5+ campus events annually, serving 25+ students and community members.
- Coordinate outreach initiatives directly impacting 50+ local community members per semester.

AWARDS & CERTIFICATIONS
